

RISHABH TRIPATHI

REACT & REACT NATIVE DEVELOPER

Ambala, Haryana | rishabhtripathi2001@proton.me | +91 97298-16903

MOTIVE

I am a passionate React Native Developer dedicated to building high-performance, user-centric mobile applications that feel "native" on every screen. My primary motivation is bridging the gap between complex business logic and intuitive user experiences. I thrive on the challenge of writing clean, reusable code that allows a single codebase to serve users across both iOS and Android without compromising on speed and quality.

TECHNICAL SKILLS

HTML CSS & JS	React Hooks	API Integration & Data Fetching
Elemental Typescript	React Native Development	Native Modules & Bridges
Web Development	Testing & Debugging	Performance Optimization
Proficient State Management	Responsiveness	Animations

PROFESSIONAL EXPERIENCE

Rubix Technologies | React Native Developer

Dec 2024 - Feb 2026

- Built a library of reusable UI components that allowed our team to finish new screens in half the usual time.
- Redesigned the main dashboard to load 40% faster, which made the app feel much smoother and reduced user frustration.
- Developed a single codebase that works perfectly on both iOS and Android, saving the company months of extra work.

Suffescom Solutions | React Developer

March 2023 - Nov 2024

- Optimized the performance of heavy image lists using caching techniques, which reduced screen loading times by 30%.
- Developed a library of 15+ reusable UI components (like custom buttons and input fields), speeding up the team's development process for future features.
- Led the integration of third-party REST APIs for a payment gateway, ensuring secure and seamless transactions for thousands of active users
- Build robust UI/UX for different geolocation clients.
- Fixed a critical bug in the app's navigation system that was causing crashes, resulting in a 99% crash-free rate for the latest release
- I played a key role in preparing and submitting the app to both the Apple App Store and Google Play Store, ensuring the app met all technical requirements for a successful public launch

Winni.In | Content Writer

July 2020 - Feb 2023

- Created high quality B2C content for the brand.
- Brought ranking and aided in enhancing their digital presence globally.
- Provided technical expertise, contributing to a 15% reduction SEO glitches.
- Promoted their product globally in more than 10 countries.
- Helped with social media ideas.
- Wrote blog posts and articles based on occurring events and festivals.
- Collaborated with the team to discuss new content ideas and learnt to decrease jargon.

EDUCATION

Bachelor of Computer Applications

August 2017 - September 2020

Kurukshetra University

- Studied theorem of computer applications and its functions.
- Build projects and became friendly with modern computer science technologies.

HSC | PCM

May 2015 - March 2017

SMB Geeta Sr. Sec. School

- Studied physics, chemistry and mathematics from Haryana Board of Secondary Examination.

MY ACHIEVEMENTS

- Optimized the code to make the app load 40% faster, leading to a much better experience for users on older phones.
- Switched a Vanilla Js project to React, which caught errors early and reduced app crashes by 25% in the first three months.
- Created a set of reusable UI parts (like buttons and inputs) that allowed the team to build new screens twice as fast.
- Wrote automated tests for the most important features (like Login and Checkout), ensuring no new updates broke the app.
- Integrated Local Storage, allowing users to continue using the app's main features even when they lost their internet connection.
- Cleaned up complex global data, making it much easier for other developers to understand and modify the code.

HOBBIES

- Book Reading.
- Exploring history and resolving mysterious events.
- Gaining knowledge about universal stuffs
- Dancing when the beat hits.
- Photography & Videography.
- Image creation & caption writing.
- Exercise.
- Writing & explaining complex things.
